---

The Sanibel Public Library is closed effective Wednesday, March 18, 2020 out of concern for the health and safety of Library users and staff amid COVID-19 and public health concerns.

The closure will be in effect for a few weeks, depending on the developments and guidelines regarding COVID-19.

All programs and meetings, including the Library District Board of Commissioners meeting, are postponed or cancelled.

Operationally, the Library notes:

- All overdue fines and user fees are waived during the closure;
- The Library is implementing automatic renewal of library cards;
- All books and other materials placed on Hold by users will be suspended and remain on Hold for pickup when Library reopens;
- The drive-up book drop located on the west side of the parking garage, near the exit, is available for book and other materials returns;
- The Library's eShelf and all online services remain available 24/7 including downloading of ebooks and audiobooks, streaming of movies and music, access to magazines and newspapers, language learning, and access to personal library accounts.

"We appreciate the public's support and patience shown as we work through this situation. Our concern is for the health and safety of all Library users, staff and volunteers, and Islanders," said Library Director Margaret Mohundro.

The Library is providing further information and frequent updates on its website: [www.sanlib.org](http://www.sanlib.org)

Questions and comments may be directed to the email listed on the website: [notices@sanlib.org](mailto:notices@sanlib.org)
